

EIGHT MEN KILLED IN A TUNNEL.

WALL FELL ON THEM WITHOUT WARNING WHILE THEY WERE WORKING AT NIGHT.

Pittsburg, Aug. 23.—Eight men were killed, two more may die, and five others were badly injured at the Carnegie tunnel, on the Chartiers branch of the Pan Handle Railway, last night. The accident was due to the wall of the tunnel caving in on a number of workmen. The dead are: DELBONO, Federico, laborer, Haldersburg, Penn. GORNEY, Antonio, laborer, Pittsburg. JONES, B. L., foreman, Ashland, Va. LOSTRAPPO, Antonio, laborer, Pittsburg. MILLS, Felix, laborer, Glendale, Penn. VOLPE, Vincent, laborer, Pittsburg. WALLACE, Thomas, laborer, Pittsburg.

The men were injured by a wall of earth, which fell on them without warning. The tunnel is entirely cleared of the debris, and no other dead or injured were found.

The men were part of a force of sixty-eight employed by a contractor named Casper, from Columbus, Ohio. They were engaged in tearing out the tunnel on the Chartiers Valley branch of the Pan Handle road, just west of the town of Carnegie.

The work is being done at night in order not to interfere with traffic in the day. It has gone on for about a month without accident, and was nearing completion. Last night the workmen were engaged in loading the train used in hauling out the dirt from the tunnel. A blast had been set off about an hour before.

The men were preparing to pull down the west wall of the tunnel, had fixed a rope for this purpose, and were ready to draw some holes in it for blasting, when suddenly the wall fell on them. Every man standing in the tunnel was killed. The bodies were buried alive. The other workmen at once began the work of rescue.

He was still living, and was sent to his home in Glendale, where he died about three hours later. The train brought him to the West Penn Hospital, where he died. It is not thought that he will live. The bodies were recovered later and taken to the Carnegie morgue.

EUROPEAN PRODUCE MARKETS.
